

## NARS for Master degree

أ - المعرفة والفهم:

المقررات التي تحقق المعايير الأكاديمية للبرامج	مخرجات التعلم المستهدفة ILOs	(ARS) Benchmark Royal College of Psychiatrists	(NARS) المعايير القومية الأكاديمية القياسية العامة لبرامج قطاع الدراسات العليا (درجة الماجستير في الأمراض العصبية و الطب النفسى)
Psychology Psychopathology Psychiatry, neurology Neuropathology	A1,A5,A6,A7,A8	Be able to perform specialist assessment of patients and document relevant history and examination on culturally diverse patients	1) Theories, concepts and specialized knowledge of the learning area and also sciences appropriate to the professional practice.
Psychiatry Neurology Medicine, physiology, Biochemistry, histology Psychopharmacology Addiction Adolescents psychiatry	A2,A3,A8,A9 ,A10	<p>-Demonstrate the ability to construct formulations of patients' problems that include appropriate differential diagnoses</p> <p>- Demonstrate the ability to recommend relevant investigation and treatment in the context of the clinical management plan. This will include the ability to develop and document an investigation plan including appropriate medical, laboratory, radiological and psychological investigations and then to construct a comprehensive treatment plan addressing biological, psychological and socio-cultural</p> <p>- Based on the full psychiatric assessment, demonstrate the ability to conduct therapeutic interviews; that is to collect and use clinically relevant material. The doctor will also demonstrate the ability to conduct a range of individual, group and family therapies using standard accepted models and to integrate these psychotherapies into everyday treatment, including biological and socio-cultural interventions</p> <p>- Develop the ability to carry out specialist assessment and treatment of patients with chronic and severe mental disorders and to demonstrate effective management of these disease states</p> <p>- Develop the ability to conduct and complete audit in clinical practice</p>	2) Mutual influence between professional practice and its impacts on the environment.

		<p>- Use effective communication with patients, relatives and colleagues. This includes the ability to conduct interviews in a manner that facilitates information gathering and the formation of therapeutic alliances</p> <p>-Demonstrate the ability to work effectively with colleagues, including team working</p>	
Psychology ,psychiatry, neurology	A2,A3,A6,A8, A9.A10,A13	-Develop the habits of lifelong learning	3) Scientific developments in the field of specialization
Psychiatry Neurology Clinical neurophysiology	A5, A8, A10,A13	- Demonstrate the ability to concisely, accurately and legibly record appropriate aspects of the clinical assessment and management plan	4) Moral and legal ethics of the professional practice in the area of specialization.
Psychiatry Neurology	A3,A8,A10	Ensure that you act in a professional manner at all times	5) The concepts and principles of quality of the professional practice in the area of specialization.
Psychiatry Neurology	A5,A9,A10	Develop an understanding of research methodology and critical appraisal of the research literature	6) The basics and ethics of scientific research.

### ب - القدرات الذهنية :

المقررات التي تحقق المعايير الأكاديمية للبرامج	مخرجات التعلم المستهدفة ILOs	(ARS) Benchmark Royal College of Psychiatrists	(NARS) المعايير القومية الأكاديمية القياسية العامة لبرامج قطاع الدراسات العليا (درجة الماجستير في الأمراض العصبية و الطب النفسي)
Psychology, Psychopathology Psychiatry Neurology Neuropathology	B1,B2,B7,B8	Be able to perform specialist assessment of patients and document relevant history and examination on culturally diverse patients to include: <ul style="list-style-type: none"> <li>• Presenting or main complaint</li> <li>• History of present illness</li> <li>• Past medical and psychiatric history</li> <li>• Systemic review</li> <li>• Family history</li> <li>• Socio-cultural history</li> <li>• Developmental</li> </ul>	1) Analyze and evaluate of information in the field of specialization and make full use of such information to solve problems.

		history	
Psychiatry Neurology Clinical neurophysiology	B3, B10, B11	Demonstrate the ability to recommend relevant investigation and treatment in the context of the clinical management plan. This will include the ability to develop and document an investigation plan including appropriate medical, laboratory, radiological and psychological investigations and then to construct a comprehensive treatment plan addressing biological, psychological and socio-cultural domains	2) Solve specific problems on the basis of limited and contradictory information.
Psychiatry Neurology	B6	Develop an understanding of research methodology and critical appraisal of the research literature	3) Carry out a research study and / or writing a scientific methodology study on research problem.
Psychiatry Neurology	B5, B8	Demonstrate the ability to construct formulations of patients' problems that include appropriate differential diagnoses	4) Assess and analyze risks of the professional practice in the field of specialization.
Psychiatry Neurology Clinical neurophysiology	B5, B8,B9	Develop the ability to conduct and complete audit in clinical practice	5) Plan to improve performance in the field of specialization
Psychiatry Neurology Clinical neurophysiology	B2,B3,B8,B9	Based on the full psychiatric assessment, demonstrate the ability to conduct therapeutic interviews; that is to collect and use clinically relevant material. The doctor will also demonstrate the ability to conduct a range of individual, group and family therapies using standard accepted models and to integrate these psychotherapies into everyday treatment, including biological and socio-cultural intervention	6) Make career decisions in different professional aspects

## ج - المهارات العملية:

المقررات التي تحقق المعايير الأكاديمية للبرامج	مخرجات التعلم المستهدفة ILOs	(ARS) Benchmark Royal College of Psychiatrists	(NARS) المعايير القومية الأكاديمية القياسية العامة لبرامج قطاع الدراسات العليا (الأمراض العصبية و الطب النفسى)
Psychiatry Addiction Psychopharmacology Adolescents Neurology Neuropathology Clinical neurophysiology	C1,C2,C3,C4,C5,C6 C7,C8, C9, C10	- Based on the full psychiatric assessment, demonstrate the ability to conduct therapeutic interviews; that is to collect and use clinically relevant material. The doctor will also demonstrate the ability to conduct a range of individual, group and family therapies using standard accepted models and to integrate these psychotherapies into everyday treatment, including biological and socio-cultural interventions	1) Apply modern and principle professional skills in the area of specialization.
Psychiatry Neurology Clinical neurophysiology	C4, C7,C8, C9,C10	- Demonstrate the ability to concisely, accurately and legibly record appropriate aspects of the clinical 38 assessment and management plan	2) Write and evaluate technical reports.
Psychiatry Neurology Clinical neurophysiology	C1,C2,C3,C6, C7,C8, C9, C10	-Develop the ability to conduct and complete audit in clinical practice - To develop reflective practice including self-reflection as an essential element of safe and effective psychiatric clinical practice	3) Adopt assessment methods and tools existing in the area of specialization

د- مهارات الاتصال:

المقررات التي تحقق المعايير الأكاديمية للبرامج	مخرجات التعلم المستهدفة ILOs	(ARS) Benchmark المعايير الأكاديمية لجامعة Royal College of Psychiatrists	(NARS) المعايير القومية الأكاديمية القياسية العامة لبرامج قطاع الدراسات العليا (درجة الأمراض العصبية و الطب النفسى)
Psychiatry Psychopathology Adolescents Addiction Neurology Clinical neurophysiology Neuropathology	D1,D2	Use effective communication with patients, relatives and colleagues. This includes the ability to conduct interviews in a manner that facilitates information gathering and the formation of therapeutic alliances	1) Communicate effectively in different aspects.
Psychiatry Neurology Clinical neurophysiology	D3	Develop an understanding of research methodology and critical appraisal of the research literature	2) Demonstrate efficient IT capabilities in such a way that serves in the development of the professional practice.
Psychiatry Neurology	D3,D4	To develop reflective practice including self-reflection as an essential element of safe and effective psychiatric clinical practice	3) Adopt self-assessment and specify his needs of personal learning.
Psychiatry Neurology	D3	Develop and utilize the ability to teach, assess and appraise	4) Use different resources for information and knowledge.
Psychiatry, neurology	D4	Develop the ability to conduct and complete audit in clinical practice	5) Establish rules and indicators for assessing the performance of others.
Psychiatry, neurology	D2	Effective leadership skills	6) Collaborate effectively within multidisciplinary team and lead teams in different professional contexts.
Psychiatry neurology	D4	Demonstrate the knowledge, skills and behaviors to manage time and problems effectively	7) Demonstrate a high level of competence in the time management.
Psychiatry, neurology	D3,D4	To develop the habits of lifelong learning	8) Continuous self-education.
