Microbiology

Parasitology

**Pharmacology
seminar**

Practical groups: from 1 to 16

Groups 1-8: each group involves 92 students.

Groups 9-16: each group involves 93 students.

Level (2), Semester (3), Academic year (2025-2026)

Week1: US-303 & ECE-304									
		8:00-10:00	10:00-12:00	12:00-12:30	12:30-1:30	1:30-2:30	2:30-3:30	3:30-4:30	Online case discussion 7:00-10:00
Sunday 7/9/2025					Lectures (Ali Hegazi Hall)				
					Introductory lecture	US-303 L1: Posterior abdominal wall and lumbar plexus أ.م.د. علاء بدوى	US-303 L1: Urinary system 1 د ایمان سعید مختار	US-303 L1: JGA and Renal blood flow and its control د: ولاء عبیدة	
Monday 8/9/2025	practical	G1, G2 US-303: Posterior abdominal wall and lumbar plexus (Anatomy lab.)	G3, G4 US-303: Posterior abdominal wall and lumbar plexus (Anatomy lab)		G5, G6 US-303: Posterior abdominal wall and lumbar plexus (Anatomy lab)		G7, G8 US-303: Posterior abdominal wall and lumbar plexus (Anatomy lab)		
Tuesday 9/9/2025					Lectures (Ali Hegazi Hall)				
					US-303 L2: Anatomy of the kidney and ureter د. ماجدة السيد	US-303 L2: Urinary system 2 د ایمان سعید مختار	US-303 L3: Urinary system 3 د ایمان سعید مختار	US-303 L3: Anatomy of urinary bladder and urethra ا.د. امنیة سمیر	
Wednesday 10/9/2025	practical	G9, G10 US-303: Urinary system (Histology Lab.). G11, G12 US-303 Posterior abdominal wall and lumbar plexus(Anatomy lab.)	G9, G10 US-303 Posterior abdominal wall and lumbar plexus (Anatomy lab) G11, G12 US-303: Urinary system (Histology Lab.).		G13, G14 US-303: Urinary system (Histology Lab.). G15, G16 US-303 Posterior abdominal wall and lumbar plexus(Anatomy lab.)		G13, G14 US-303 Posterior abdominal wall and lumbar plexus (Anatomy lab.) G15, G16 US-303: Urinary system (Histology Lab.).		Renal colic ا.د. شیماء المرسی
Thursday 11/9/2025						Lectures (Ali Hegazi Hall)			
					US-303 L4: abdominal aorta and Inferior vena cava and internal iliac artery د. حنان الجندي	US-303 L5: Development and anomalies of the kidney ا.د. شیماء المرسی	US-303 L1: Congenital & hereditary urinary tract diseases د. رامی عبد السلام	US-303 L1: Endocrine functions of the Renal System د. مها عثمان

Level (2), Semester (3), Academic year (2025-2026)

Week7: CVS-301& ECE-304								
	8--00-10:00	10:00-12:00	12:00-12:30	12:30-1:30	1:30-2:30	2:30-3:30	3:30-4:30	Online case discussion 7:00-10:00
Saturday 18/10/2025	G1, G2 CVS-301: Mediastinum &Great vessels (Anatomy lab) G3, G4 ECE-304: Performing and interpreting ECG. I((Physiology lab.) G5, G6 CVS-301: Lab. diagnosis of Trypanosoma cruzi (Para. lab.)	G1, G2 ECE-304: Performing and interpreting ECG. I((Physiology lab.) G3, G4 CVS-301: Mediastinum &Great vessels (Anatomy lab) G7, G8 CVS-301: Lab. diagnosis of Trypanosoma cruzi (Para. lab.)		G1, G2 CVS-301: Lab. diagnosis of Trypanosoma cruzi (Para. lab.) G5, G6 ECE-304: Performing and interpreting ECG. I((Physiology lab.) G7, G8 CVS-301: Mediastinum &Great vessels (Anatomy lab)		G3, G4 CVS-301: Lab. diagnosis of Trypanosoma cruzi (Para. lab.) G5, G6 CVS-301: Mediastinum &Great vessels (Anatomy lab) G7, G8 ECE-304: Performing and interpreting ECG. I((Physiology lab.)		
Sunday 19/10/2025				Lectures (Ali Hegazi Hall)				Hypertension
				CVS-301L12: Physiological regulation of arterial blood pressure (intermediate and long-term regulation) أ.د: أسعد المليجي	CVS-301L4: Hypertension د. ايمان سليم	CVS-301L2: Drug treatment of hypertension -1 د/ محمود عبد الله	CVS-301 L3: Drug treatment of hypertension -2 د/ محمود عبد الله	
Monday 20/10/2025	G9, G10 ECE-304: Performing and interpreting ECG. I((Physiology lab.) G11, G12 CVS-301: Mediastinum &Great vessels (Anatomy lab) G13, G14 CVS-301: Staphylococcus & Streptococcal laboratory diagnosis I (Micro. lab.) G15, G16 ECE-304: Performing basic biochemical blood tests (Creatinine). I (Biochemistry & Histology. Lab.)	G9, G10 CVS-301: Mediastinum &Great vessels (Anatomy lab) G11, G12 ECE-304: Performing and interpreting ECG. I((Physiology lab.) G13, G14 ECE-304: Performing basic biochemical blood tests (Creatinine). I (Biochemistry & Histology. Lab.) G15, G16 CVS-301: Staphylococcus & Streptococcal laboratory diagnosis I (Micro. lab.)		G9, G10 CVS-301: Staphylococcus & Streptococcal laboratory diagnosis I (Micro. lab.) G11, G12 ECE-304: Performing basic biochemical blood tests (Creatinine). I (Biochemistry & Histology. Lab.) G13, G14 CVS-301: Mediastinum &Great vessels (Anatomy lab) G15, G16 ECE-304: Performing and interpreting ECG. I((Physiology lab.)		G9, G10 ECE-304: Performing basic biochemical blood tests (Creatinine). I (Biochemistry & Histology. Lab.) G11, G12 CVS-301: Staphylococcus & Streptococcal laboratory diagnosis I (Micro. lab.) (Para. lab.) G13, G14 ECE-304: Performing and interpreting ECG. I((Physiology lab.) G15, G16 CVS-301: Mediastinum &Great vessels (Anatomy lab)		Rheumatic fever د. نوران سمرة
Tuesday 21/10/2025				Lectures (Ali Hegazi Hall)				
				CVS-301 L13: Physiological regulation of arteriolar diameter and organ blood flow د: داليا عبد القفار	CVS-301 L14: Capillary circulation and dynamics of capillary filtrations أ.د: عبير فؤاد	CVS-301L5: Ischemic heart diseases د.هبة صلاح	CVS-301L4: Antianginal drugs & drug treatment of acute myocardial infarction د/ اسماء الرخاوى	
Wednesday 22/10/2025	G11, G12 CVS-301: Lab. diagnosis of Trypanosoma cruzi (Para. lab.) G13, G14 CVS-301: Heart sounds (Physiology lab.) G15, G16 CVS-301: Pathology of vascular diseases (Pathology Lab).	G9, G10 CVS-301: Lab. diagnosis of Trypanosoma cruzi (Para. lab.) G13, G14 CVS-301: Pathology of vascular diseases (Pathology Lab). G15, G16 CVS-301: Heart sounds (Physiology lab.)		G9, G10 CVS-301: Heart sounds (Physiology lab.) G11, G12 CVS-301: Pathology of vascular diseases (Pathology Lab). G13, G14 CVS-301: Lab. diagnosis of Trypanosoma cruzi (Para. lab.)		G9, G10 CVS-301: Pathology of vascular diseases (Pathology Lab). G11, G12 CVS-301: Heart sounds (Physiology lab.) G15, G16 CVS-301: Lab. diagnosis of Trypanosoma cruzi (Para. lab.)		Hypertension د.سارة الحنفى
Thursday 23/10/2025	9-10:30 CBL 1	10:30-12:00 CBL 1		Lectures (Ali Hegazi Hall)				
				CVS-301L6: Development of the heart I د. هبه الحسى	CVS-301 L15: Lymphatic and venous circulation أ.د: عبير فؤاد	CVS-301L6: Endocarditis د.سيلفيا البير	CVS-301L7: Rheumatic fever د.سيلفيا البير	

Level (2), Semester (3), Academic year (2025-2026)

Week8: CVS-301& ECE-304							
	8--00-10:00	10:00-12:00	12:00-12:30	12:30-1:30	1:30-2:30	2:30-3:30	3:30-4:30
Saturday 25/10/2025	G1, G2 CVS-301: Pathology of vascular diseases (Pathology Lab). G3, G4 CVS-301: Case discussion of Hypertension (Pharma Lab). G5, G6 CVS-301: Laboratory assessment of cardiac markers (Biochemistry Lab) G7, G8 CVS-301: Mediastinum & heart radiology (Anatomy lab)	G1, G2 CVS-301: Case discussion of Hypertension (Pharma Lab) G3, G4 CVS-301: Pathology of vascular diseases (Pathology Lab). G5, G6 CVS-301: Mediastinum & heart radiology (Anatomy lab) G7, G8 CVS-301: Laboratory assessment of cardiac markers (Biochemistry Lab)		G1, G2 CVS-301: Laboratory assessment of cardiac markers (Biochemistry Lab) G3, G4 CVS-301: Mediastinum & heart radiology (Anatomy lab) G5, G6 CVS-301: Pathology of vascular diseases (Pathology Lab). G7, G8 CVS-301: Case discussion of Hypertension (Pharma Lab)		G1, G2 CVS-301: Mediastinum & heart radiology (Anatomy lab) G3, G4 CVS-301: Laboratory assessment of cardiac markers (Biochemistry Lab) G5, G6 CVS-301: Case discussion of Hypertension (Pharma Lab) G7, G8 CVS-301: Pathology of vascular diseases (Pathology Lab).	Cases on Ischemic Heart disease د أسماء الرخاوى
Sunday 26/10/2025	9-10:30 CBL (IA assessment)	10:30-12:00 CBL (IA assessment)		Lectures (Ali Hegazi Hall)			Ischemic heart disease د. رقية مسعود
				CVS-301 L16: Physiology of special circulations (coronary, pulmonary and cerebral) ا.م.د: جيهان شاكرا	CVS-301L8: Myocarditis & Cardiomyopathy د. مينا محفوظ	CVS-301 L 5: positive inotropic drugs for treatment of Heart failure د/ نهال	CVS-301L7: development of the heart د. هبة الحمى 2
Monday 27/10/2025	G5, G6 CVS-301: Staphylococcus & Streptococcal laboratory diagnosis I (Micro. lab.) G7, G8 ECE-304: Performing and interpreting ECG. II (Physiology lab.) G9, G10 CVS-301: Case discussion of Hypertension (Pharma Lab) G11, G12 CVS-301: Laboratory assessment of cardiac markers (Biochemistry Lab) G13, G14 CVS-301: Mediastinum & heart radiology (Anatomy lab) G15, G16 CVS-301: Pathology of heart diseases (Pathology Lab)	G5, G6 ECE-304: Performing and interpreting ECG. II (Physiology lab.) G7, G8 CVS-301: Staphylococcus & Streptococcal laboratory diagnosis I (Micro. lab.) G9, G10 CVS-301: Laboratory assessment of cardiac markers (Biochemistry Lab) G11, G12 CVS-301: Case discussion of Hypertension (Pharma Lab) G13, G14 CVS-301: Pathology of heart diseases (Pathology Lab) G15, G16 CVS-301: Mediastinum & heart radiology (Anatomy lab)		G1, G2 CVS-301: Staphylococcus & Streptococcal laboratory diagnosis I (Micro. lab.) G3, G4 ECE-304: Performing and interpreting ECG. II (Physiology lab.) G9, G10 CVS-301: Mediastinum & heart radiology (Anatomy lab) G11, G12 CVS-301: Pathology of heart diseases (Pathology Lab) G13, G14 CVS-301: Case discussion of Hypertension (Pharma Lab) G15, G16 CVS-301: Laboratory assessment of cardiac markers (Biochemistry Lab)		G1, G2 ECE-304: Performing and interpreting ECG. II (Physiology lab.) G3, G4 CVS-301: Staphylococcus & Streptococcal laboratory diagnosis I (Micro. lab.) G9, G10 CVS-301: Pathology of heart diseases (Pathology Lab) G11, G12 CVS-301: Mediastinum & heart radiology (Anatomy lab) G13, G14 CVS-301: Laboratory assessment of cardiac markers (Biochemistry Lab) G15, G16 CVS-301: Case discussion of Hypertension (Pharma Lab)	
Tuesday 28/10/2025				Lectures (Ali Hegazi Hall)			Fallot's tetralogy د. ماجدة السيد
				CVS-301 L8: Fetal circulation and postnatal changes د. حنان الجندي	CVS-301L9: pericardial diseases & Tumors of CVS د. مينا محفوظ	CVS-301L9: Development of Aortic arches د. حنان الجندي	
Wednesday 29/10/2025	G3, G4 CVS-301: Development and congenital anomalies of the heart (Anatomy lab.) G5, G6 CVS-301: Pathology of heart diseases (Pathology Lab) G7, G8 CVS-301: Staphylococcus & Streptococcal laboratory diagnosis II (Micro. lab.) G13, G14 CVS-301: Case discussion of Heart failure (Pharma. Lab). G15, G16 ECE-304: Performing and interpreting ECG. II (Physiology lab.)	G1, G2 CVS-301: Development and congenital anomalies of the heart (Anatomy lab.) G5, G6 CVS-301: Staphylococcus & Streptococcal laboratory diagnosis II (Micro. lab.) G7, G8 CVS-301: Pathology of heart diseases (Pathology Lab) G13, G14 ECE-304: Performing and interpreting ECG. II (Physiology lab.) G15, G16 CVS-301: Case discussion of Heart failure (Pharma. Lab).		G1, G2 CVS-301: Pathology of heart diseases (Pathology Lab) G3, G4 CVS-301: Staphylococcus & Streptococcal laboratory diagnosis II (Micro. lab.) G5, G6 CVS-301: Development and congenital anomalies of the heart (Anatomy lab.) G9, G10 CVS-301: Case discussion of Heart failure (Pharma. Lab). G11, G12 ECE-304: Performing and interpreting ECG. II (Physiology lab.)		G1, G2 CVS-301: Staphylococcus & Streptococcal laboratory diagnosis II (Micro. lab.) G3, G4 CVS-301: Pathology of heart diseases (Pathology Lab) G7, G8 CVS-301: Development and congenital anomalies of the heart (Anatomy lab.) G9, G10 ECE-304: Performing and interpreting ECG. II (Physiology lab.) G11, G12 CVS-301: Case discussion of Heart failure (Pharma. Lab).	
Thursday 30/10/2025	9-10:30 CBL 2	10:30-12:00 CBL 2		Lectures (Ali Hegazi Hall)			
				CVS-301 L17: Physiological responses of CVS to stress (exercise) ا.م.د: جيهان شاكرا	CVS-301L6: Management of acute pulmonary edema & cardiogenic shock د/ نبيل ادب	CVS-301 L18: Physiological responses of CVS to stress (hemorrhage and shock) ا.م.د: جيهان شاكرا

G13, G14 RS-302: Pathology of respiratory tract infections (Pathology Lab.) G15, G16 RS-302: Intercostal vessels Azygous and hemiazygous (Anatomy lab.)		Pulmonary tuberculosis د.منى هانى
Tuesday 25/11/2025				Lectures (Ali Hegazi Hall)				
				RS-302 L0: Nervous regulation of respiration د: زينب حليم	RS-302 L11: Chemical regulation of respiration د: زينب حليم	RS-302 L4: Bronchial Asthma د.أميرة الهوارى	RS-302 L1: Treatment of bronchial asthma د/ ابراهيم الشنباتى	Fever of unknown origin د. اميرة يحيى
Wednesday 26/11/2025	G3, G4 RS-302: Case discussion on Respiratory tract infection (Bronchitis, pneumonia + T.B) (Pharma. lab.) G5, G6 RS-302: Diagnosis of Mycobacterium tuberculosis (Micro. lab.) G7, G8 RS-302: Pathology of respiratory tract infections (Pathology Lab.) G13, G14 RS-302: Dynamic Pulmonary functions tests by BIOPAC system (Physiology lab.) G15, G16 RS-302: Anatomy of Larynx and lung part 1 (Anatomy lab.)	G1, G2 RS-302: Case discussion on Respiratory tract infection (Bronchitis, pneumonia + T.B) (Pharma. lab.) G5, G6 RS-302: Pathology of respiratory tract infections (Pathology Lab.) G7, G8 RS-302: Diagnosis of Mycobacterium tuberculosis (Micro. lab.) G13, G14 RS-302: Anatomy of Larynx and lung part 1 (Anatomy lab.) G15, G16 RS-302: Dynamic Pulmonary functions tests by BIOPAC system (Physiology lab.)		G1, G2 RS-302: Diagnosis of Mycobacterium tuberculosis (Micro. lab.) G3, G4 RS-302: Pathology of respiratory tract infections (Pathology Lab.) G5, G6 RS-302: Case discussion on Respiratory tract infection (Bronchitis, pneumonia + T.B) (Pharma. lab.) G9, G10 RS-302: Dynamic Pulmonary functions tests by BIOPAC system (Physiology lab.) G11, G12 RS-302: Anatomy of Larynx and lung part 1 (Anatomy lab.)		G1, G2 RS-302: Pathology of respiratory tract infections (Pathology Lab.) G3, G4 RS-302: Diagnosis of Mycobacterium tuberculosis (Micro. lab.) G7, G8 RS-302: Case discussion on Respiratory tract infection (Bronchitis, pneumonia + T.B) (Pharma. lab.) G9, G10 RS-302: Anatomy of Larynx and lung part 1 (Anatomy lab.) G11, G12 RS-302: Dynamic Pulmonary functions tests by BIOPAC system (Physiology lab.)		
Thursday 27/11/2025	9-10:30 CBL 1	10:30-12:00 CBL 1		Lectures (Ali Hegazi Hall)				
				RS-302 L5: Chronic Obstructive lung diseases د.أميرة الهوارى	RS-302 L12: Hypoxia (definition, causes and characteristics and effects) ا.م.د: محمد غلوش	RS-302 L13: Effect of high partial pressure of gases (O2 and N2) د: سميرة سعد	RS-302 L2: "Drug Therapy of cough & Oxygen Therapy د/ ابراهيم الشنباتى

Level (2), Semester (3), Academic year (2025-2026)

Week13: RS-302& ECE-304

	8:-00-10:00	10:00-12:00	12:00-12:30	12:30-1:30	1:30-2:30	2:30-3:30	3:30-4:30	Online case discussion 7:00-10:00
Saturday 29/11/2025 practical	G3, G4 RS-302: Pathology of obstructive lung diseases (Pathology Lab.) G5, G6 ECE-304: Measuring respiratory rate/ Performing and interpreting basic respiratory function tests. (Physiology lab.) G7, G8 RS-302: Anatomy of Larynx and lung part 1 (Anatomy lab.)	G1, G2 RS-302: Pathology of obstructive lung diseases (Pathology Lab.) G5, G6 RS-302: Anatomy of Larynx and lung part 1 (Anatomy lab.) G7, G8 ECE-304: Measuring respiratory rate/ Performing and interpreting basic respiratory function tests. (Physiology lab.)		G1, G2 ECE-304: Measuring respiratory rate/ Performing and interpreting basic respiratory function tests. (Physiology lab.) G3, G4 RS-302: Anatomy of Larynx and lung part 1 (Anatomy lab.) G5, G6 RS-302: Pathology of obstructive lung diseases (Pathology Lab.)		G1, G2 RS-302: Anatomy of Larynx and lung part 1 (Anatomy lab.) G3, G4 ECE-304: Measuring respiratory rate/ Performing and interpreting basic respiratory function tests. (Physiology lab.) G7, G8 RS-302: Pathology of obstructive lung diseases (Pathology Lab.)		
Sunday 30/11/2025	9-10:30 CBL (IA assessment)	10:30-12:00 CBL (IA assessment)		Lectures (Ali Hegazi Hall) RS-302 L14: Role of respiratory system in regulation of acid base balance د: يمنى يحيى RS-302 L3: pH and Acid Base Balance Disorders I إ.د. داليا شاهين RS-302 L3: pH and Acid Base Balance Disorders II إ.د. داليا شاهين RS-302 L1: Parasitic lung lesions. د حنان محمد علي عبد الجواد				
Monday 1/12/2025 practical	G9, G10 RS-302: Anatomy of lungs and pleura (Anatomy lab.) G11, G12 RS-302: Determination of pH by the pH meters (Biochemistry lab.) G13, G14 ECE-304: Measuring respiratory rate/ Performing and interpreting basic respiratory function tests. (Physiology lab.) G15, G16 RS-302: Pathology of obstructive lung diseases (Pathology Lab.)	G9, G10 RS-302: Determination of pH by the pH meters (Biochemistry lab.) G11, G12 RS-302: Anatomy of lungs and pleura (Anatomy lab.) G13, G14 RS-302: Pathology of obstructive lung diseases (Pathology Lab.) G15, G16 ECE-304: Measuring respiratory rate/ Performing and interpreting basic respiratory function tests. (Physiology lab.)		G9, G10 ECE-304: Measuring respiratory rate/ Performing and interpreting basic respiratory function tests. (Physiology lab.) G11, G12 RS-302: Pathology of obstructive lung diseases (Pathology Lab.) G13, G14 RS-302: Anatomy of lungs and pleura (Anatomy lab.) G15, G16 RS-302: Determination of pH by the pH meters (Biochemistry lab.)		G9, G10 RS-302: Pathology of obstructive lung diseases (Pathology Lab.) G11, G12 ECE-304: Measuring respiratory rate/ Performing and interpreting basic respiratory function tests. (Physiology lab.) G13, G14 RS-302: Determination of pH by the pH meters (Biochemistry lab.) G15, G16 RS-302: Anatomy of lungs and pleura (Anatomy lab.)		Pleural effusion إ.د أماني شمس
Tuesday 2/12/2025				Lectures (Ali Hegazi Hall) RS-302 L4: Viral respiratory tract infections د/ نوران سمرة RS-302 L5: Viral respiratory tract infections د/ نوران سمرة RS-302 L6: Chronic interstitial lung diseases & diseases of vascular origin د. منار عبد الرحمن RS-302 L9: Development and anomalies of respiratory system إ.د محمد رفعت				Cases on bronchial asthma
Wednesday 3/12/2025	G1, G2 RS-302: Arterial Blood Gases (ABGs) (Physiology lab.) G3, G4 RS-302: Determination of pH by the pH meters (Biochemistry lab.) G7, G8 RS-302: Anatomy of lungs and pleura (Anatomy lab.) G13, G14 RS-302: Diagnosis of Mycobacterium tuberculosis (Micro. lab.) G15, G16 RS-302: Case discussion on Bronchial asthma (Pharma. lab.)	G1, G2 RS-302: Determination of pH by the pH meters (Biochemistry lab.) G3, G4 RS-302: Arterial Blood Gases (ABGs) (Physiology lab.) G5, G6 RS-302: Anatomy of lungs and pleura (Anatomy lab.) G13, G14 RS-302: Case discussion on Bronchial asthma (Pharma. lab.) G15, G16 RS-302: Diagnosis of Mycobacterium tuberculosis (Micro. lab.)		G3, G4 RS-302: Anatomy of lungs and pleura (Anatomy lab.) G5, G6 RS-302: Arterial Blood Gases (ABGs) (Physiology lab.) G7, G8 RS-302: Determination of pH by the pH meters (Biochemistry lab.) G9, G10 RS-302: Case discussion on Bronchial asthma (Pharma. lab.) G11, G12 RS-302: Diagnosis of Mycobacterium tuberculosis (Micro. lab.)		G1, G2 RS-302: Anatomy of lungs and pleura (Anatomy lab.) G5, G6 RS-302: Determination of pH by the pH meters (Biochemistry lab.) G7, G8 RS-302: Arterial Blood Gases (ABGs) (Physiology lab.) G9, G10 RS-302: Diagnosis of Mycobacterium tuberculosis (Micro. lab.) G11, G12 RS-302: Case discussion on Bronchial asthma (Pharma. lab.)		
Thursday 4/12/2025				Lectures (Ali Hegazi Hall) RS-302 L7: Lung tumors د. منار عبد الرحمن RS-302 L15: Effect of exercise on respiratory system د: يمنى يحيى RS-302 L10: Development of face, nose, and palate إ.د. رانيا نعيم RS-302 L8: Diseases of pleura د. رحاب طلعت				Lung cancer د/سارة رافت
